Easy way for us to get an FTP site?

Hi Michael,

I will check with Cincinnati regarding their availability and a FTP site. Also, I have some questions/clarifications. How quickly do you need to have the information evaluated and in how much detail, i.e., are you wanting a quick, 70,000 feet evaluation or are you wanting a deeper dive? Additionally, isn't Larry Z looking at some of this information? Shouldn't we coordinate with him so we're not duplicating efforts and so we can optimize who best to evaluate what?

Thanks, Chuck

Do you have an FTP site, the semi annual reports are quite large. I am out of the office but can send on Monday.

Judith,

Could you send me any and everything you have related to the sampling for PFAS substances at SDL? This includes QAPPs, lab reports and things like that. I want to run it all by EPA lab people. Chuck Maurice will be helping us with this tool.

Thanks,
Michael
